

NEW!

MARTIN® CLEANSRAPE™

A REVOLUTIONARY INNOVATION IN BELT CLEANING TECHNOLOGY.

The one and only metal-tipped peeling angle cleaner that will clean perfectly, accommodate splices and not damage your belt.

Martin® CleanScape™

- Provides a safe, effective peeling angle
- No danger of cutting or destroying the belt
- Works on all types of mechanical splices
- Requires only one tensioner adjustment EVER!
- The only cleaner you'll ever need — replaces multiple cleaner systems
- Provides easy installation requiring minimal space
- Belt friendly—requires the least blade-to-belt pressure of any belt cleaner

**Try it,
you'll like it!**
GUARANTEED!

Applications

CleanScape is a proven solution, providing long running, highly effective belt cleaning performance while requiring minimal maintainance in major bulk materials handling industries around the world.

A NEW DIMENSION OF BELT CLEANING

The CleanScape Belt Cleaning System introduces a revolutionary innovation in belt cleaning technology.

CleanScape is installed diagonally across the discharge pulley and forms a three dimensional curve. The cleaner incorporates a matrix of tungsten carbide scrapers and is tensioned against the belt. Despite an extremely low contact pressure between belt and cleaner, 85% to 95% of stuck material is removed.

Dimensions	Ø Pulley dia. (mm)	Belt width (mm)
CSP S	270 - 550	400 - 1200
CSP M	550 - 900	500 - 1600
CSP L	900 - 1250	800 - 2400

See What **Delighted Customers** Have To Say About the **CleanScape Cleaner**

"Maintenance is almost unnecessary. The volume of cleaning activities at the belt systems has been significantly reduced owing to the use of IBS cleaners. We highly recommend the use of this system."

Ramp & Salzmann
Uwe Schridde

"The cleaning results of this pre cleaner can be assessed as excellent. The use of an additional scrapers is absolutely not necessary."

Johann Bergmann GmbH & Co.
Bernd Stolze

"We will install this system at our other conveyors according to our needs, as it contributes to cleanliness and cost reduction through low maintenance requirements."

Timo Hoffmann
Fels-Werke GmbH
